COVER STORY

# LATAM Launches All About U:

## Driving Smarter Growth Across ECU Worldwide

LATAM has launched **All About U,** a new initiative designed to transform how trade lanes, consolidations, and commercial decisions are managed across the region. While the program is being rolled out in LATAM, its ambition extends far beyond the region, demonstrating how better utilization, data-driven insights, and cross-functional collaboration can strengthen the entire ECU Worldwide network.

At its core, All About U is about more than utilization. *It is about building a culture where every commercial and operational action is guided by profitability, accountability, and better use of our existing network.*

ALL ABOUT U

UTILIZATION.
PROFITABILITY.
RESULTS.

## From Volume Growth to Smarter Growth

Growth has always been part of ECU Worldwide's DNA. Our global network, entrepreneurial spirit, and customer-centric culture have enabled us to become the world's leading LCL provider. As our network continues to expand, so does the opportunity to create greater value from the capacity we already have. For many years, success in logistics has largely been measured through volume growth, market share, and service expansion. While those objectives remain essential, All About U introduces another perspective.

**The initiative encourages teams to look beyond how much cargo we move and focus instead on how effectively we leverage our network. By improving container utilization, optimizing cargo mix, and aligning commercial strategies with operational realities, ECU Worldwide can unlock significant value without requiring additional infrastructure or capacity.**

Simply put, All About U encourages us to maximize the profitability of every trade lane, every consolidation, and every cubic meter moving through our network.

"All About U is more than a utilization initiative; it is a new way of working that empowers smarter commercial and operational decisions, driving more profitable growth across our network."

**Sergio Rodrigues**
Regional CEO – LATAM

## A Framework for Better Decisions

The program operates through three interconnected levels of execution, ensuring that long-term strategy is translated into consistent daily action.

### Strategic

Quarterly reviews analyze trade lane performance, utilization trends, cargo mix, and network design. These discussions help determine where ECU Worldwide should invest, grow, optimize, redesign, or discontinue services to strengthen long-term profitability and ensure resources are allocated where they create the greatest impact.

### Tactical

Country Managers, Sales Managers, and Pricing Teams conduct monthly reviews to identify specific opportunities and corrective actions. These may include targeted sales campaigns, customer portfolio optimization, pricing adjustments, or initiatives to improve utilization across individual trade lanes.

### Operational

On a daily basis, Commercial, Pricing, Customer Service, and Operations Teams monitor consolidations and available capacity in real time, enabling proactive action to help maximize container utilization before departure.

Together, these three levels create a structured operating framework that connects strategy with execution and ensures every team contributes towards the same objective.

**Elroy De Menezes**
*Global Business Process Manager*

## Powered by Data Visibility

Effective decisions begin with access to reliable, timely, and actionable information. Supporting this effort are tools such as **Cube.AI, MSR/MCR reporting, and Power BI analytics,** which provide clear visibility into utilization levels, profitability, cargo mix, and consolidation performance across the network.

A major contributor to this capability has been **Elroy De Menezes, Global Business Process Manager,** whose work in developing and enhancing the dashboard infrastructure has enabled the transparency required to make All About U possible. By transforming operational data into meaningful business insights, these dashboards provide Country Managers, Sales, Pricing, Customer Service, and Operations teams with a shared view of business performance and opportunities for improvement.

The result is a more connected organization where teams can respond faster, with greater confidence, using real-time insights rather than assumptions.

## Colombia: The First Proof of Concept

Although **All About U was formally launched this month,** its principles have already been successfully tested in practice. Over the past several months, the Colombia team began reviewing trade lanes individually, analyzing utilization, profitability, pricing, and customer mix. The exercise challenged long-standing assumptions while revealing opportunities and inefficiencies across the network.

The outcome was a series of targeted actions, including pricing corrections, adjustments to commercial focus, optimization of customer portfolios, and more disciplined commercial execution regarding low-profit business. As the review process matured, analysis became faster, losses were progressively reduced, and teams developed a much clearer understanding of where value was truly being created.

The Colombia experience demonstrated one of the fundamental principles behind All About U: sustainable improvement does not always come from adding more volume. Often, the greatest opportunity lies in making better use of the business we already have.

ECU Worldwide Colombia Team

## Chile Leads the Operational Rollout

**Another important milestone has already been achieved in Chile, which became the first office in the region to fully incorporate the All About U concept into its daily operations.**

The Chile team **implemented a dedicated Cube.AI dashboard,** providing real-time visibility into consolidations and available capacity across the network. This initiative has strengthened collaboration among Pricing, Sales, Customer Service, and Operations while raising greater awareness of capacity optimization across the office.

The implementation serves as a practical example of how technology, visibility, and cross-functional collaboration can transform a strategic initiative into everyday operational practice.

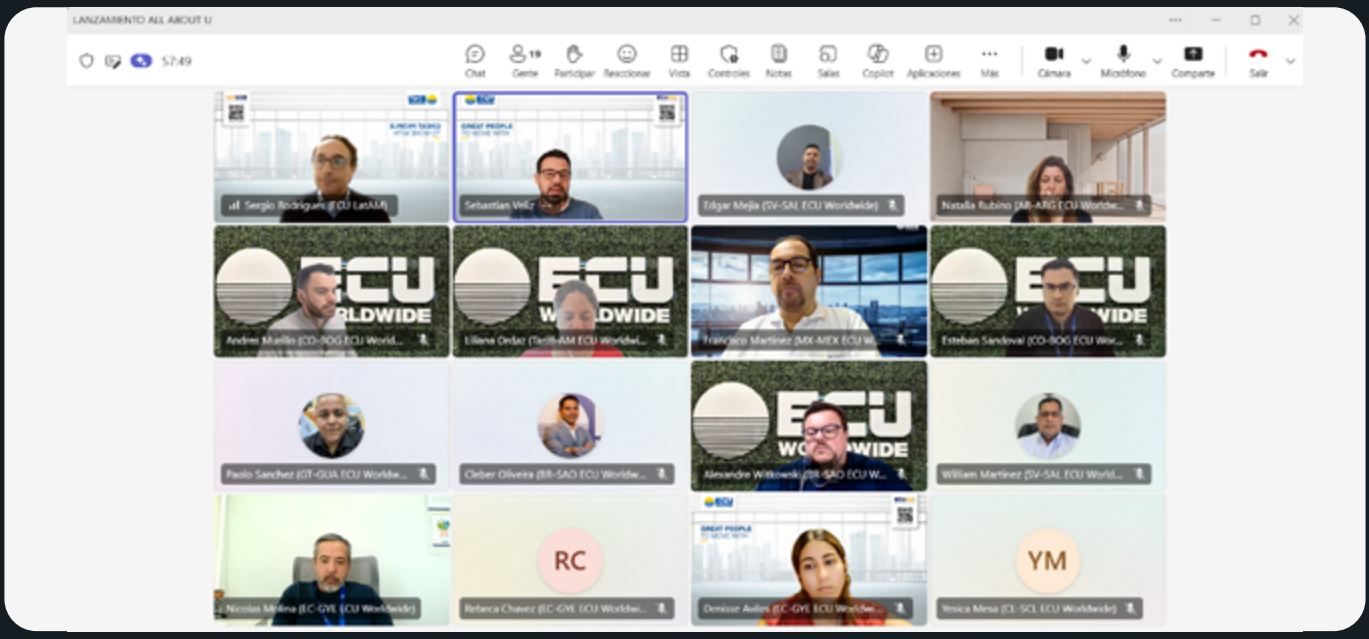

ECU Worldwide Chile Team

## Why It Matters

The business impact of improving utilization can be substantial. Unlike traditional growth initiatives that often require additional investments, facilities, or fixed costs, better utilization leverages capacity that already exists within ECU Worldwide's network. Every additional cubic meter moved within the available space directly improves operational efficiency and strengthens financial performance. Just as importantly, All About U encourages teams to think beyond individual shipments and view the network as an interconnected ecosystem, where better decisions in one trade lane can generate value across the entire organization.

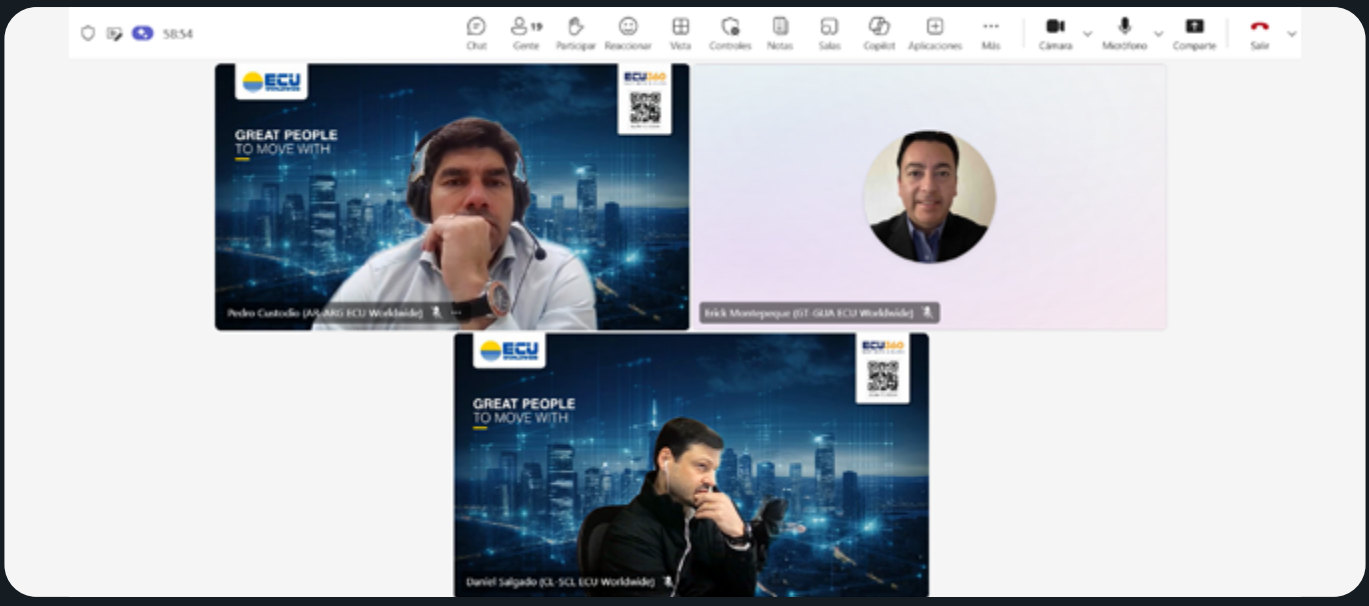

This shift in mindset reinforces a culture where every commercial and operational action aligns with the shared objective of building a stronger, more profitable network.

## Looking Ahead

Over the coming months, the focus will be on expanding training, increasing dashboard adoption, strengthening process implementation, and establishing regular strategic and tactical reviews across the region. As teams continue incorporating these principles into their everyday operations, All About U is expected to become more than a regional initiative; it will become a way of working. While LATAM is leading the implementation, the ambition extends far beyond the region. The initiative demonstrates how data visibility, accountability, collaboration, and disciplined execution can help build a stronger and more profitable ECU Worldwide network.

**The message behind All About U is simple: Growth remains important. But smarter, more profitable growth is even better.** By combining technology, visibility, accountability, and collaboration, ECU Worldwide is creating a culture in which every trade lane has a strategy, every container has a purpose, and every opportunity to deliver greater value is fully realized.

# Inauguration of Shashikiran Shetty Educational Institutions, Mumbai

What if the greatest legacy we leave behind is not a business, but an opportunity?

That belief came to life as our beloved Chairman, **Mr. Shashi Kiran Shetty,** inaugurated **Bunts Sangha's Shashikiran Shetty Educational Institutions, Borivali,** in the esteemed presence of the **Hon'ble Union Minister of Commerce & Industry, Shri Piyush Goyal,** along with other distinguished dignitaries.

The institution is home to the **Bunts Sangha's Arathi Shetty Icon School** and **Bunts Sangha's Leelavati Hegde School,** named in honor of **Mrs. Arathi Shetty, Non-Executive Director – Allcargo Global and Allcargo Logistics,** who also leads **Allcargo Group's CSR arm, Avashya Foundation,** and his mother-in-law, **Mrs. Leelavati Hegde.** The occasion was also attended by **Adarsh Hegde, Managing Director – Allcargo Global; Kaiwan Kalyaniwalla, Chairman – Allcargo Terminals;** and **Dinesh Lal, Director – Allcargo Logistics.**

In his address, Mr. Shetty shared why education remains the greatest force for transforming lives, building character, and shaping the future.

Read the address to discover the vision behind this landmark institution and the values that will guide generations to come.

Good morning, everyone,

**Hon. Union Minister of Commerce and Industry, Govt. of India, Shri Piyush Goyal;** Current MP from Borivali; our own Ex-Member of Parliament from Borivali, **Shri Gopal C. Shetty; MLA from Dahisar, Smt. Manisha Ashok Chaudhary;** and other dignitaries on & off the Dais.

**Arathi Shetty, Non-Executive Director – Allcargo Global and Allcargo Logistics,** and I are extremely grateful to our dearest friends, **Seema and Piyush Ji,** for gracing the occasion by sparing their most valuable time to inaugurate this wonderful school. Thank you for honoring us and the entire proud Bunts community which is spread across the world with over two million of us, businessmen, doctors, lawyers, professionals and agriculturists.

I extend a warm greeting to our distinguished guests, trustees and past presidents of **Bunts Sangha, a century-old organization** which has been dedicated to educational and social advancement, particularly **Mr. S.M Shetty** & **Mr. Manmohan Shetty,** along with **Dr. P.V. Shetty,** who have spearheaded the educational projects that brought the **Bunts Sangha** to prominence.

I would also like to acknowledge the presence of **Mr. Adarsh Hegde, Managing Director – Allcargo Global,** with his wife, **Priya Hegde; Prabhakar Shetty, Mentor – HR,** with his wife, **Shoba Shetty,** who are the closest members of our family. My daughter, **Shloka Shetty,** who is also with us today, has been inducted as one of the trustees of this school. My son, **Vaishnav Shetty, Deputy Managing Director – Allcargo Global,** is travelling in the USA; therefore, he could not join us today.

I would also like to thank our close family friends, **Vijay Choradia** and **Manish Goswami,** for being with us today. Also, a few of my other closest friends and board members have joined the occasion: **Dinesh Lal, Director – Allcargo Logistics; Kaiwan Kalyaniwalla, Chairman and Non-Executive Director – Allcargo Terminals,** who have all been my mentors and guides in my life.

Friends, we all have come together here to celebrate the fulfilment of a promise to the city: the inauguration of **Bunts Sangha's Shashikiran Shetty Educational Institutions Borivali,** under which we have **Bunts Sangha's Arathi Shetty Icon School** and **Bunts Sangha's Leelavati Hegde School.** The purpose of this school is to commence a long-term commitment to shape the human potential of the suburbs of Mumbai, where 40 years ago I used to live.

Once the school is fully operational, it can educate around **3500** students

I have guided the management to educate the children with the Indian culture, traditions and rich heritage that we have inherited.

Every great nation is ultimately built not by its infrastructure alone, but by the quality of its citizens, and the quality of its people is determined by the quality of its education.

Institutions such as these become the foundations upon which future generations build their dreams, their careers, and their contribution to society.

### Why education has always been close to our heart

Throughout my life, whether in business or public service, I have witnessed one truth repeatedly: education remains the greatest force for social mobility and human transformation.

The classic example of that is our chief guest today. Shri Goyal ji is a CA second-rank holder and has a law degree to his credit; his dearest wife, Seema Ji, is also highly ranked in her own studies at Shri Ram College in Delhi. Their son and daughter are very accomplished, hardworking, both with MBA degrees from Harvard Business School & Wharton Business School, respectively.

As we all know, good education can alter the trajectory of an individual's life, a family's future, and ultimately the destiny of communities and nations.

More importantly, education shapes judgment, ethics, resilience, and character — the qualities that determine how success is used.

We are entering an era defined by artificial intelligence, technological disruption, sustainability challenges, and unprecedented global interconnectedness combined with a complicated geopolitical situation.

Therefore, today the role of schools has evolved from primarily imparting knowledge to nurturing critical thinking, creativity, leadership, empathy, and problem-solving.

Whether these students become entrepreneurs, researchers, public servants, scientists, artists, or business leaders, they will require both competence and character.

### What this Institution represents

This makes today's occasion deeply meaningful for me. Bunts Sangha's Arathi Shetty Icon School and Bunts Sangha's Leelavati Hegde School are much more than educational institutions. They represent values that have shaped my own life: respect for learning, humility, perseverance, service, and commitment to family.

Naming these schools after my wife, Arathi, and my mother-in-law, Leelavati, makes this initiative all the more special, personally, as they have both done remarkable work in their respective spheres of influence. Their names will now be associated with something far more enduring: The opportunity to shape young minds and future generations.

### Philanthropy as a responsibility, not an option

Over the years, I have come to believe that success finds its deepest meaning when it creates opportunities for others.

If India is to realize its aspirations to become a developed nation, we must invest not only in economic growth but also in human development, quality education, and campuses of global standards, even more than before. Being the Chairman of IIM Mumbai, this is exactly what we are doing there with the support of our Director, Shri Tiwari Ji, and his team, who are here today.

I believe the most valuable legacy any of us can leave behind is not wealth itself, but opportunity. These schools are an expression of that belief.

### The Legacy of Bunts Sangha

Friends, for decades, Bunts Sangha has demonstrated what community-led institution-building can achieve. The tireless efforts of a few leaders of our community have been demonstrated by realizing a dream school like this.

Starting with significant effort and donation by **Shri S.M. Shetty,** along with **Bunts Sangha's** office bearers, built their first school in Powai. **SM Shetty School & College** today educates well **over 10,000 students.** Then came the **Manmohan Shetty Education Institution at Kurla,** where the **Sangha** educates well over **3000 students.**

Through its contributions to education, healthcare, and social development, it has transformed thousands of lives and brought deeper bonding and welfare for our underprivileged community members.

The credit also goes to many of the other donors, who, with deep respect for our own community and for the city, have given their hard-earned money. I salute them for their sacrifices.

I am sure that this institution will become one of the most enduring expressions of that legacy; the Bunts Sangha and its members will be very proud of it and will motivate younger generations to continue on this path.

### Looking Ahead: India's Defining Opportunity

As we agree, India stands at a historic moment with transformations taking place all around us. Thanks to our **Hon'ble Prime Minister of India, Shri Narendra Modi ji.**

We are one of the youngest nations in the world, although we are **5000 years old** in terms of civilization, and our demographic advantage can become our greatest strength — provided we invest in education, skills, research, and innovation.

I am sure that this school will become known not only for academic excellence, but also for producing individuals who combine competence with compassion and ambition with integrity.

If our students leave this institution with confidence, values, curiosity, and a desire to contribute to society, we will have fulfilled our mission.

I believe that the inauguration of a school is not the culmination of a project; it is the beginning of a responsibility that spans generations.

The real journey begins when classrooms come alive with ideas, teachers inspire young minds, and students begin discovering their purpose.

My sincere hope and faith is that many decades from now, this institution will be recognized not because it bears a particular name, but because of the lives it has transformed and the leaders it has produced.

The real journey begins when classrooms come alive with ideas, teachers inspire young minds, and students begin discovering their purpose.

Ladies and gentlemen, thank you all for your valuable presence and solidarity to build more such projects under Bunts Sangha, like community hospitals and colleges around the city of Mumbai. I am sure the honorable minister can be approached should we need his help to accomplish more community work, as he is a Mumbaikar like all of us.

Extremely hardworking, no-nonsense, and a go-getter. Like the Bunts families, he and his wife are firm devotees of Lord Ganesha and Balaji, Ma Laxmi, and Saraswati; and ardent followers of Indian tradition.

He has a big heart and a stated purpose to help people in need 24 hours a day. He dedicated his life to this great nation and works almost around the clock over the last 12 years as one of the most successful cabinet ministers for the Government of India under the leadership of Shri Narendra Modi.

He has to his credit several accomplishments while as a Minister in power, in Railways, he brought in tremendous changes, investments, and safety of passengers. Now, as Commerce Minister, he has to his credit, especially, the most talked-about trade deals, helping to take India's merchandise trade well over 1 trillion dollars and beyond in the next couple of years.

Recently, I was part of the business delegation Mr. Goyal led to London to operationalize the historic trade deal with the UK. During his speech, the entire gathering stood up and gave him a standing ovation for the outstanding work he has done for our country. Friends, let's do the same here, let's give him a standing ovation.

To the best of my knowledge, such deals have never happened for India since independence. Tonight, he is going to the European Union, I guess, to operationalize the 'Mother of All Deals': the trade deal with Europe.

I am sure there are many more to follow soon. The country is truly blessed to have a son like him, Borivali, and the region is lucky to have an MP like him, continuing the tradition Mr. Gopal Shetty has set. He has made his parents very proud, who must be blessing him from heaven for his outstanding work for the nation.

I am truly blessed to have this opportunity to speak here today.

Thank you very much.

Jyotsna Morris I jyotsna.morris@allcargo.group

Organizational Update

# People Development in Action: Daniel Salgado and Sebastián Veliz take on new roles

At ECU Worldwide, we believe that one of our greatest strengths is our ability to develop talent and create opportunities for our people to grow across geographies and functions.

**We are pleased to announce that Daniel Salgado has been appointed as Sales Director, South Europe, taking on a new international leadership role within our global network.**

**Daniel Salgado**
*Sales Director, South Europe*

Although Daniel's time in Chile was relatively short, he made a significant impact on the organization. Through his people-centered leadership style, focus on accountability, and commitment to strengthening management processes, he helped build a strong foundation for the Chile team.
Daniel leaves behind a legacy of structured managerial workflows, talent development, and a culture of collaboration that will continue to benefit the organization in the years ahead.

This appointment reflects both Daniel's performance and our commitment to recognizing and developing talent across the global network.

**Sebastián Veliz**
*Country Manager, Chile*

**As Daniel embarks on this exciting new chapter, we are equally pleased to announce Sebastián Veliz's promotion to Country Manager, Chile.**

This appointment reflects both Daniel's performance and our commitment to recognizing and developing talent across the global network.

Sebastián has been an integral part of the Chile organization for many years and has consistently demonstrated strong leadership, deep market knowledge, and a passion for delivering results. His leadership journey is another example of our commitment to developing internal talent and creating opportunities for growth.

In his new role, Sebastián will lead the Chile business with the support of a strong management team, including **Marcelo Obligado, Operational Manager, and Miyrela Rubilar, Finance Manager,** ensuring continuity and a continued focus on operational excellence, customer satisfaction, and profitable growth.

This transition represents much more than a leadership change; it is another example of how we continue to invest in our people, creating opportunities for career development while ensuring the strength and continuity of our local organizations.

Please join us in congratulating Daniel and Sebastián on their new roles and wishing them every success in this next stage of their careers with ECU Worldwide.

You can contact them at:
**Daniel Salgado:** DanielSalgado@ecuworldwide.com, **Sebastian Veliz:** SebastianVeliz@ecuworldwide.com

## INSIDE THE OPERATIONS DASHBOARD

Explore the tools, views, and insights available in the ECU Worldwide Operations Dashboard to drive smarter planning, better visibility, and more effective decision-making across the network.

Next up: **Clients – Exc Credit Limit**

# Clients – Exc Credit Limit

*The ECU Worldwide Operations Dashboard is available only in Citrix and through your browser and provides all offices with multiple views to help manage their business effectively and efficiently.*

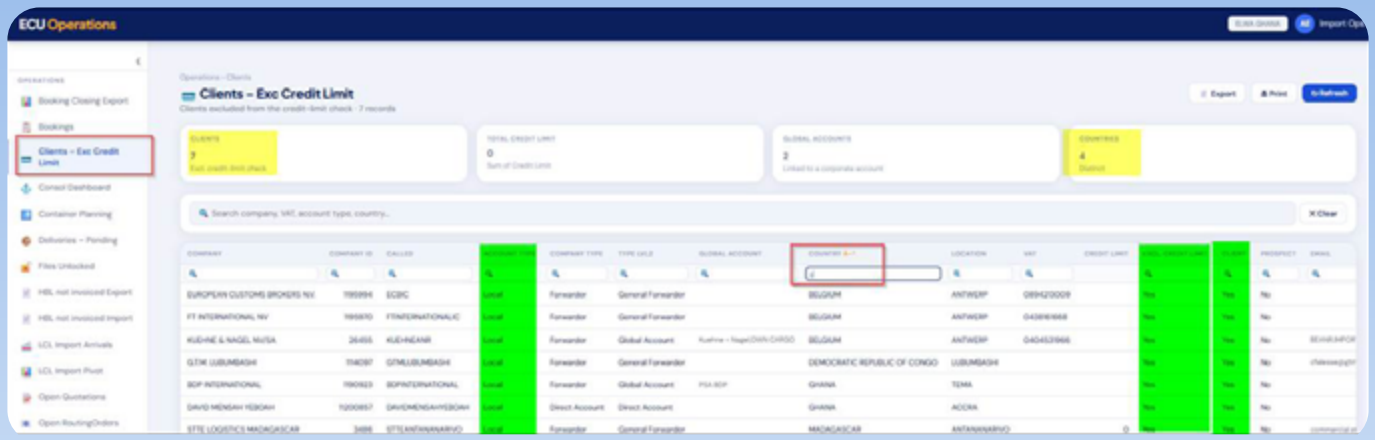

*URL: https://statistics.ecuworldwide.com/ecuoperations*

The ECU Worldwide Operations Dashboard now provides visibility for all your companies tagged as AccountType=LOCAL, enabled as Clients and shown to be excluded from credit checks, allowing them to bypass the DO Release workflow and outstanding balance checks.

Clients set up in the 'Exclude Credit Limit' category are critical to maintaining effective credit control and minimizing financial risk.

When a client is not excluded from the credit limit, the system performs the necessary validations during the DO (Delivery Order) Approval/Release Workflow, including:

- Outstanding balance checks before cargo release
- Credit limit validation to ensure customer exposure remains within approved limits
- Management visibility and control over high-risk accounts
- Prevention of unauthorized releases where payments are overdue, or credit exposure is excessive

### Impact of Excluding Credit Limit

Clients tagged as 'Exclude Credit Limit' bypass these controls, resulting in:

- DOs being released without validating outstanding receivables
- Increased risk of bad debt and overdue collections
- Reduced effectiveness of the credit control process
- Potential loss of leverage for collecting outstanding invoices before cargo release
- Reduced visibility of high-risk customer exposure

As part of the Governance process, Credit limit exclusions should be restricted to genuinely approved exceptions only, such as Corporate Accounts, Key local accounts, Intercompany, or agents incorrectly classified as Clients or Local accounts.

Maintaining accurate credit limit controls ensures that the DO Approval workflow functions as intended, preventing cargo release for accounts exceeding approved credit exposure and strengthening overall financial governance.

The view can be filtered by country name, company type and even global account. The dashboard is near real-time, so it refreshes data every five minutes based on approved changes in TOPAZ.

If you have any questions or comments on this, please liaise with your regional BPM team.

# Wearing Team Spirit with Pride

The excitement of the FIFA World Cup came alive across our offices as colleagues marked Jersey Day with color, energy, and camaraderie.

From ECU Worldwide Dubai and Egypt to Mumbai and other facilities across India, colleagues wore jerseys representing their favorite countries and sports, embracing the spirit of unity and collaboration both on and off the field.

The occasion brought colleagues across regions together, adding vibrancy to the workplace and strengthening connections across our global network.

Thank you to everyone who brought their enthusiasm and sporting spirit to the celebration!

# Important Announcement:

## ECU Worldwide Singapore Pte (Pvt) Ltd Notice of Change of Warehouse

Date: July 03, 2026

Dear Valued Customers, Suppliers, and Business Partners,

Re: Change of warehouse address with effect from August 01, 2026

We wish to inform you that, as part of our ongoing commitment to improving our operational efficiency and logistics capabilities, our warehouse will be relocated to new premises with effect from August 01, 2026.

Please be advised that, effective from the above date, all deliveries, collections, and other warehouse-related transactions should be directed to our new warehouse address as follows:

**PSA Port Ecosystem (SEA) Pte Ltd (PPES whse)**
**BLK 513 #02- 112,**
**KEPPEL DISTRIPARK,**
**KAMPUNG BAHRU ROAD**
**SINGAPORE 099449**

**Import vessel ETA: August 01, 2026. Will be unstuffed at the above address. To check unstuffing, please check the PPES website https://www.cargoclique.com/ppsspublic/lcltracking.aspx**

**Export vessel ETA: August 05, 2026; cargo to be sent to the above address starting Monday, August 03, 2026.**

Kindly update your records to reflect this change and ensure that all future shipments and correspondence relating to our warehouse operations are addressed accordingly from the effective date.

Please note that this relocation applies only to our warehouse. All other company contact details, including our registered office address, telephone numbers, and email addresses, remain unchanged unless otherwise advised.

We sincerely appreciate your cooperation in updating your records and thank you for your continued support.

Should you require any further information or clarification regarding this relocation, please do not hesitate to contact us.

**Management Contact Details:**
ECU WORLDWIDE (SINGAPORE) PTE. LTD
237, Pandan Loop #06-08 to #06-11, Westech Building, Singapore 128424

**Notice:**

All business transactions are conducted in accordance with and governed by the terms of (a) the Singapore Logistics Association Standard Trading Conditions (May 07, 2004, version), (b) for sea carriage or sea freight, in addition to (a), the terms of the house bill of lading, and (c) for air carriage or air freight, in addition to (a), the terms of the house airway bill. A copy of each of the above-mentioned documents in (a), (b) and (c) setting out the said terms and conditions, is available upon request.

# Important Notice: Germany

## Introduction of FOB Fee Effective August 1st, 2026

Dear Valued Customers and Partners,

We would like to inform you that, effective August 1st, 2026, we will introduce an FOB Fee for all applicable FOB shipments ex Germany, Austria, Slovakia, Slovenia and the Czech Republic.

This adjustment is necessary to cover the additional administrative and operational efforts required for managing and processing FOB cargo.

**Effective Date: August 1st, 2026**

**Charge: FOB Fee – EUR 25.00 per B/L**

We appreciate your understanding and continued support. Should you have any questions or require further information, please do not hesitate to contact your local ECU Worldwide representative.

Thank you for your continued business.

Kind regards,
ECU Worldwide Germany

**Inke Höing | InkeHoeing@ecuworldwide.com**

# THE ECU WORLDWIDE WAY

This Culture Code brings our core principles to life. You may have heard these ideas from our beloved Chairman, Mr. Shashi Kiran Shetty — this is his philosophy in action. These are not abstract ideals; they are the mindsets and behavior we expect every ECU Worldwide team member to live by every single day. Let them shape how we lead, work, and grow — together, as one ECU Worldwide.

## 1 Do the right thing—even when it is hard.

Our company is the collective soul of its people. Its strength lies in our sincerity, values, and professionalism.

Keep your promises to customers, partners, and one another. We do not manipulate numbers. We do not cut corners. We are not here for shortcuts. We are here to build something that lasts.

Integrity includes financial discipline. Treat the company's money like it is your own. Avoid waste. Choose frugality over flamboyance. Profit and cash flow are not luxuries; they are responsibilities. Our focus is on long-term value, not quarterly optics.

Integrity also shapes how we represent our brand. Every commitment must be delivered with excellence and transparency.

## 2 If you truly and simply care, you will make it work.

This ethos underpins everything we do.

Care for the people around you. Act with humility, empathy, and respect, whether dealing with customers, colleagues, or vendors. Listen as much as you speak. Time is a form of respect, too. Come prepared, act with purpose, and use your colleagues' time wisely. Every meeting, call, or conversation should move us closer to our goals.

We do not tolerate gossip, leg-pulling, or disrespect in any form.

Contribute to humanity in any small way you can. A culture of care begins when we treat every interaction as an opportunity to help. We take pride in simply being helpful by nature.

Aspire and dream big while being the best version of yourself. Respect your body with healthy habits, and your soul with positive thinking. In the end, success is not just what we achieve, but how we live, give, and grow — together.

## 3 Our customers are the reason we exist.

Their trust and investment fuel our journey. We honor that by staying relentlessly committed to value creation.

Customer satisfaction is not just a metric; it is the foundation of sustainable growth. In a world full of choices, we must earn our customers' trust every single day. Let us be grateful for their business and obsessed with delivering consistent delight.

We draw inspiration from the Indian philosophy of *'Yogah Karmasu Kaushalam'* — excellence in action. At ECU Worldwide, we do not wait for ideal conditions; we make things happen. We act with urgency, own our outcomes, and never let problems linger. In our transactional, low-margin, commoditized industry, the customers do not wait.

Mistakes are expected. Stagnation is not. If you fall, fall forward. Learn fast. Try again. Celebrate success but never rest on it. The customer is never satisfied, and neither are we.

4

## Think and act like an owner.

Trust is built through ownership. We believe in empowering strong, independent teams.

Responsibility is given early because we believe in your potential. If you are trusted with a decision or project, treat it like your own. If you are assigning ownership, give clarity, support, and space, then let people lead.

Ownership means thinking ahead. In a volatile industry, surprises are expensive. Anticipate problems. Plan alternatives. Resilience is built by those who prepare.

5

## See every challenge as an opportunity.

Narrow-mindedness and complacency are fatal. Healthy debate is welcome. Once we align, we execute with both structure and agility. Process gives us consistency. Adaptability gives us an edge.

As markets, technologies, and customer expectations evolve, so must we. Innovation is not a department; it is a habit. Each of us should spend time every week, not just our tech teams, thinking about how to improve what we do.

While money can buy technology, it is our ability to use it that defines success. We win by leveraging our platforms to collaborate internally, compete externally, and create value.

We nurture innovation by empowering our younger generation. Their energy and creativity are our edge. We see their success as our own.

6

## Communicate, communicate, communicate.

If a pattern is concerning, raise it. If an idea is promising, share it. If a task is unclear, ask. If a problem is hard, ask for help.

Be honest and transparent, especially when things go wrong. Face facts. Take accountability. Ask for help when needed. Do not hide behind hierarchy or bureaucracy.

Strive for simplicity in communication and in action. The wheels will always be turning at ECU Worldwide, but creating wheels within wheels only slows us down.

7

## In a global network business, collaboration is not optional— it is essential.

We are proud to be a globally led organization with 180 countries worldwide. Cross-cultural collaboration is our daily reality and our greatest strength.

No single team, country, or department wins alone. We succeed through alignment, respect, and shared goals. We lead with global professionalism and local intuition.

We build network effects by breaking silos. Collaboration means being accessible, dependable, and focused on the greater good. It is not about credit. It is about collective progress.

Diversity is our advantage. We draw strength from our differences in culture, style, experience, and perspective. Working across languages and locations, we build inclusive habits and celebrate plural thinking. At ECU Worldwide, collaboration means making space, not just making plans.

Collaboration is our operating system. It is how we scale, how we innovate, and how we serve.

# This is the ECU Worldwide Way.

Rooted in the entrepreneurial spirit of our beloved Chairman.
Carried forward by every team member.
Lived every day.
Led by example.

Let us build the future of logistics – together.
