ECU Worldwide Expands Deeper into China with New Nanjing Branch

The new branch extends ECU Worldwide's reach across the Yangtze River Basin, connecting key inland manufacturing markets with global trade lanes.

ECU Worldwide has expanded its presence in China with the opening of its **Nanjing Branch in August 2026,** strengthening access to one of the country's most important economic and manufacturing regions.

The new branch expands ECU Worldwide's business reach from traditional port cities to major inland cities across the Yangtze River Delta and upstream regions of the river, one of China's key economic and manufacturing zones. In an increasingly competitive international logistics market, establishing a local presence in inland cities will help strengthen service levels and provide deeper insights into China's evolving economy and business landscape.

HIGHLIGHTING OUR COVERAGE

ECU WORLDWIDE NANJING

Located in Nanjing, the capital of Jiangsu Province, the branch covers Jiangsu, Anhui, and Hubei provinces.

From its base in Nanjing, the team provides comprehensive coverage across all **13 cities in Jiangsu Province — Nanjing, Suzhou, Wuxi, Changzhou, Zhenjiang, Yangzhou, Taizhou, Nantong, Yancheng, Huai'an, Suqian, Xuzhou,** and **Lianyungang.**

Beyond Jiangsu, the network extends along the Yangtze River corridor into **Anhui Province,** serving key hubs such as **Hefei, Wuhu, Ma'anshan, Tongling,** and **Anqing,** and into **Hubei Province,** including **Wuhan, Huangshi, Ezhou,** and **Yichang.**

Together, this creates an integrated riverine and inland logistics chain connecting the Yangtze River Delta with central China, while linking inland manufacturing locations with major gateways such as Shanghai and Qingdao.

Connecting Inland China to Global Markets

The branch provides LCL, FCL, Air, and multimodal transportation solutions, including trucking and feeder connections, as well as inland river-to-sea transportation along the Yangtze River.

FCL is currently a key focus, supporting both General Cargo and Dangerous Goods (DG) Cargo, while LCL continues to build on ECU Worldwide's traditional strength.

For both LCL and FCL, major export routings include feeder and trucking connections via Shanghai Port or Qingdao Port.

Key trade lanes include **Shanghai–India and Shanghai–USA,** with growing opportunities across sectors such as lithium batteries and equipment manufacturing, primarily serving direct accounts.

Building the Customer Base

The team is already focusing on several key customers, including two major direct customers:

Signify – a professional lighting brand

CIMC TLC/RYC/XLC – specializing in the design and production of various standard and specialized logistics equipment, including cold chain equipment, containerized integration, and modular buildings

The branch is also supporting a DG customer:

Leoch Battery – a global provider of advanced battery power and energy management solutions

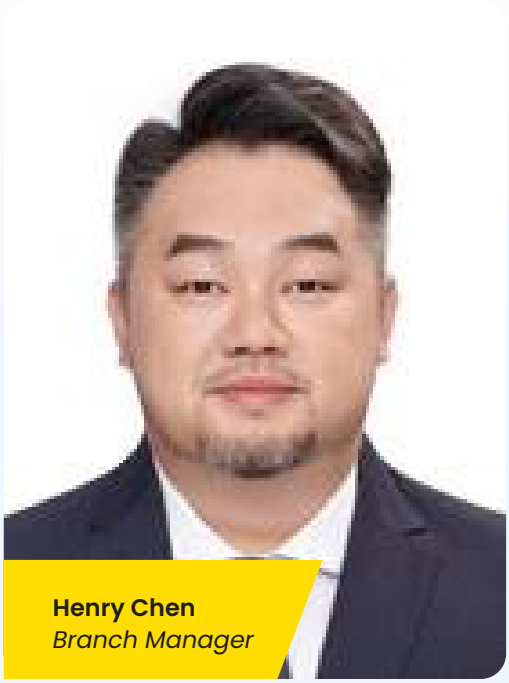

Leading the Way in Nanjing

The branch is led by **Henry Chen, Branch Manager,** who has more than 16 years of in-depth experience in the logistics industry, including senior management roles with Schenker and DSV & Schenker.

With the Nanjing Branch still in its early stages, the objective is to expand ECU Worldwide's reach into China's hinterland and establish the branch as a major service provider in the local market.

The team will continue developing direct customer relationships and business across its key markets, while also welcoming FOB opportunities from across the ECU Worldwide network.

The Nanjing Branch marks another step in expanding ECU Worldwide's footprint from China's established gateways into its major inland economic centers — bringing the network closer to customers and manufacturing clusters while opening new cargo opportunities across the Yangtze River Basin.

WHAT'S UP @
ECU WORLDWIDE

ECU Worldwide Ecuador: 30 Years of Connecting Ecuador to the World

In 1996, ECU Worldwide began its journey in Ecuador with a clear purpose: to connect Ecuador with the world and support the growth of international trade through reliable and efficient logistics solutions.

Over these 30 years, ECU Worldwide Ecuador has continuously evolved to meet the needs of an increasingly dynamic and competitive market. What began with a strong focus on ocean freight consolidation has grown into a broader portfolio of services, including LCL consolidation, FCL, Air Freight, and integrated logistics solutions, always with a commitment to quality, security, efficiency, and customer service.

"Celebrating 30 years of ECU Worldwide Ecuador is an extraordinary achievement and a true reflection of the commitment, dedication, and passion of everyone who has helped build our history.

Congratulations to Nicolás Molina, the entire Ecuador team, and especially Rebecca Chavez, who has been a fundamental part and a true protagonist of this journey.

Today, we reaffirm our commitment to Ecuador and to the continued growth of our region.

Congratulations on 30 years of success!"

Sergio Rodrigues
Regional CEO – LATAM, ECU Worldwide

One of the key pillars of our growth has been technological innovation. At ECU Worldwide, we believe that digital transformation is essential to delivering better customer experience.

As customer expectations and the logistics industry continue to evolve, technology has become a key enabler of greater visibility, control, and efficiency. Digital solutions such as ECU360, which facilitates end-to-end shipment management, and Track & Trace, which provides real-time cargo visibility, are helping our customers manage their logistics operations with greater transparency and confidence.

These advancements reflect our commitment to continuously improving how we serve our customers, becoming more agile, transparent, and connected, while embracing new technologies and preparing our business for the future.

But behind every milestone, every shipment, and every step forward, there are people who have contributed to building ECU Worldwide Ecuador's story.

Rebecca Chávez, Cluster Head – Central America, has been an important part of this journey, contributing to the company's growth and development for more than two decades. We are grateful for her dedication, commitment, and lasting contributions to our history.

Today, **Nicolás Molina,** Country Manager, Ecuador, who took the helm of Ecuador in 2025, is leading the company into this new chapter, building on the strong foundation built over the past three decades and guiding the team toward new opportunities for growth, innovation, and continued success.

Thirty years represent more than a milestone. They represent a journey built on relationships, trust, dedication, and the ability to evolve with the changing world of logistics.

As ECU Worldwide Ecuador celebrates 30 years, we look ahead with the same spirit that has guided us from the beginning: connecting Ecuador to the world and creating new possibilities for our customers, our people, and the future.

INSIDE THE OPERATIONS DASHBOARD

Explore the tools, views, and insights available in the ECU Worldwide Operations Dashboard to drive smarter planning, better visibility, and more effective decision-making across the network.

Next up: **Bookings - Oversize**

Bookings - Oversize

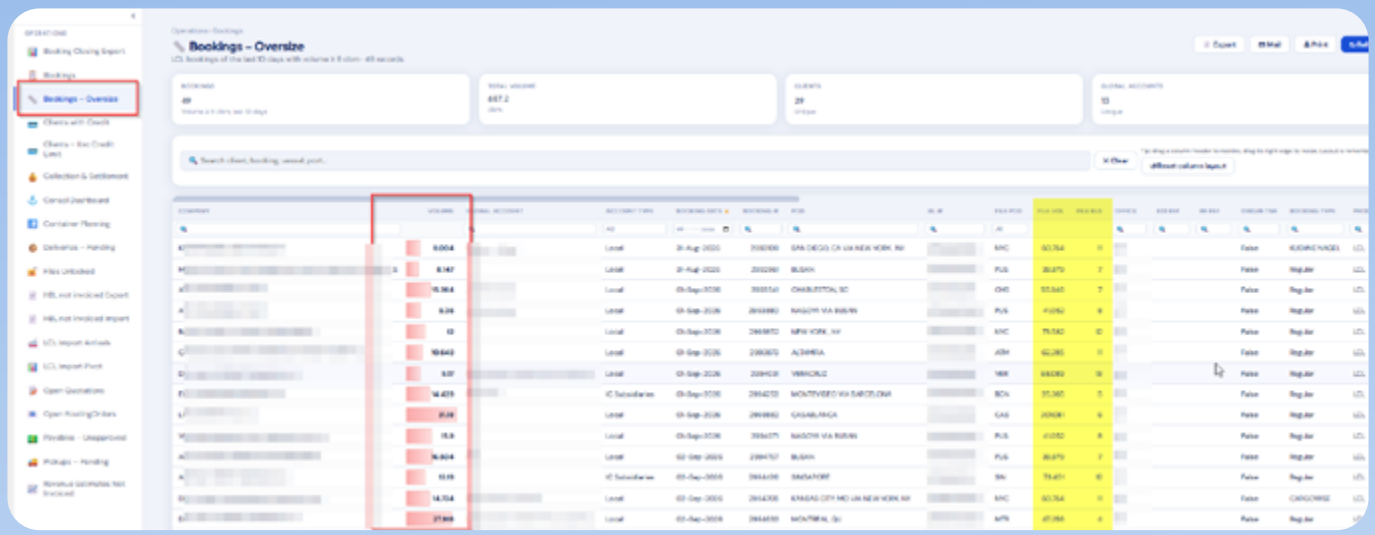

The ECU Worldwide Operations Dashboard is available through your browser inside Citrix only and provides all offices with multiple views to help manage their business effectively and efficiently.

URL: https://statistics.ecuworldwide.com/ecuoperations

In the world of LCL, not all bookings are created equal. While every shipment contributes to a console's success, 'high volume' bookings often represent a unique opportunity.

They can significantly influence container utilization, drive profitability, create consolidation opportunities, and support proactive capacity planning.

To help offices capitalize on these opportunities, the ECU Worldwide Operations Dashboard has introduced a dedicated view to see all LCL Bookings above a threshold of 8 cbm.

Large-volume LCL bookings occupy a substantial proportion of a container's available space. Identifying these shipments early enables operations and sales teams to make informed decisions around:

Consolidation planning	Container allocation	Capacity management
Pricing optimization	Customer engagement	Trade lane forecasting

Rather than discovering high-volume bookings during container planning, teams can now identify them immediately and take proactive action.

Each office should review such large bookings to determine whether they remain in the LCL consolidation, justify any special pricing or surcharges, and identify the customers/global accounts that regularly make such large LCL bookings rather than utilizing an FCL box.

The KPI cards at the top show the number of such bookings, total volume, number of clients, and number of global accounts. The report can be filtered by any column, exported to Excel, or emailed to a user in the internal domain.

If you have any questions or comments on this, please liaise with your regional BPM team.

Elroy De Menezes I elroy.demenezes@ecuworldwide.com

Important Advisory

Immediate Adoption of SCMTR (CSN) Filing

Sea Cargo Manifest & Transshipment Regulations

What SCMT means for importers

For imports arriving by sea, shipping lines and related parties must submit cargo manifest data to Indian Customs **before the vessel departs from the last foreign port of call.** This allows customs to perform risk assessment and compliance checks before the cargo reaches **India.**

Information typically required from shipper / forwarder at POL

The following details are commonly required for SCMTR compliance:

Data Element	Required
Master Bill of Lading (MBL) details	Yes
House Bill of Lading (HBL) details (for NVOCC/consol shipments)	Yes
Shipper and consignee full name & address (country name & PIN)	Yes
Notify party details	Yes
Cargo description (specific, not generic)	Yes
HSN/HS Code (6 to 8 digits)	Yes
Number and type of packages	Yes
Gross weight	Yes
Container number(s)	Yes
Seal number(s)	Usually required
Port of Loading (POL)	Yes
Port of Discharge (POD) in India	Yes
Final destination / ICD (if applicable) SEZ Code (FPD)	Yes
Country of origin	Often required by carriers

For this, we seek your support and cooperation in fulfilling the mandatory requirements listed below:

› **Share pre-alert within 4-5 days after Vessel Departure from the Origin Port.**

The below data should be declared on the HBL copy:

1. Consignee IEC Number (Import & Export Code) **(Except personal shipments by an individual for personal use)**
2. Consignee GST Number **(valid if consignee/importer is registered under GST)**
3. Consignee PAN Number **(if the consignee does not have an IEC, PAN may be used instead; PAN is also commonly required for the Indian notify party and for Indian forwarders/NVOCC's appearing on the BL)**
4. Consignee's contact details like phone number and correct Email ID.
5. **HS code Number (HS code** related to the classification of cargo and needs to be declared cargo-wise, HSN Number)
6. Passport Number if cargo belongs to Personal effects.

Short Port (Colombo): Pre-alert required prior 48 sailing of vessel (HBL & MBL copy with date)

Short Transit – Direct Vessels

Sr. No	Transit time	Pre-alert receipt deadlines
1.	All direct vessels to India. For example: container loading from Singapore/Port Klang/Colombo/Jebel Ali etc., to direct sailing to India (no foreign port of call involved before calling at the 1st Indian port of call	Arrange to send pre-alert - 48 Hrs PRIOR sailing from POL (HBL date will be filed as per the tentative vessel sailing date)

Q&A

› Who needs to file? **– Allcargo Global - NVOCC**

› In which system? **– Indian customs portal - ICEGATE**

› Origin or destination? **- Destination**

› From which date? – 1st September **(Consolidation Association of India (CAI) is negotiating with customs to extend the effective date, as much long-haul cargo has already sailed.)**

› What is the procedure with timelines from Allcargo India operations to ensure compliance? **- ≥72 hours prior to vessel ETA into Indian Ports.**

We look forward to your usual support in meeting the SCMT directives, as non-adherence to our violation of Customs regulations will result in penalties and fines, which will be charged to the cargo's account.

Sambhaji Bhogle | sambhaji.bhogle@allcargo.global

Important Notice: UAE

MPCI Filing Update

Dear All,

A new version of the MPCI pre-filer in Topaz has been deployed globally.

What has changed?

The UAE government validates the type of filing; it blocks a filing under port-to-port when the place of delivery is outside UAE territory. If this is the case, the filing type should be "transitexport". As a result, we have moved the transport type to the shipment level (HBL).

The updated SOP is also available on the IntelliHub portal under the documents & policies link.

A tutorial video on the Trade Tech online filing system is available at this link:
https://www.loom.com/share/72f2ef8b8cfe442ab805ff0aef4b1fa1

Saudi Customs has issued instructions in order to ensure proper cargo release to Saudi consignees for cargo arriving via UAE seaports. Please ensure you follow these instructions to avoid blocked cargo, unhappy consignees, and potential costs/fines!

In order to avoid problems in clearing the cargo with local customs by broker/clearing agent, please ensure that HBL is issued as per below:

To clear cargo from Saudi Customs, the consignee on the bl must be in Saudi Arabia:

HB/L Instructions:

- Shipper: Actual shipper details (can be forwarder also)
- C'nee: Actual Consignee details (see commercial docs, cannot be forwarder)
- Notify party: Actual Consignee details/forwarder or clearing agent(broker)
- Description: As per Commercial documents
- Freight terms: Collect/Prepaid as agreed

If you have further questions, please reach out to your regional BPM teams, who can answer/ direct your question to the right party.

Important Advisory

ECU Worldwide Singapore has appointed PSA Port Ecosystem as its new service provider

Dear All,

We are pleased to inform you that, effective August 01, 2026, ECU Worldwide Singapore Pvt Ltd has appointed PSA Port Ecosystem (SEA) Pte. Ltd. (PPES) as our new service provider for container trucking and unstuffing operations.

After the first two weeks of operations, we are delighted to share that PPES has successfully achieved container unstuffing within 72 hours of the vessel's full discharge, demonstrating strong operational efficiency and service commitment.

We appreciate the support and cooperation extended during this transition and look forward to continued improvements in service performance.

Should you have any questions, please get in touch with Zalina Bte Saini at zalinabs@ecuworldwide.com

Important Notice

ECU Worldwide's New Agent Partners in CYPRUS - TBOX Global Ltd

Dear All,

We are pleased to announce that **TBOX GLOBAL CYPRUS has been appointed as the ECU Worldwide network agent in Cyprus.**

ECU Worldwide has operated multiple services to Cyprus globally over the past 35 years and will continue to strengthen services, linking more Asian ports directly. This, together with the Export LCL service, will continue to be operated.

With effect from June 01, 2026, TBOX Global has commenced operations as agents for ECU Worldwide.

For all LCL shipments that are to be loaded on the services to Cyprus, the MBL's are to be consigned to TBOX GLOBAL CYPRUS.

TBOX GLOBAL CYPRUS will also form part of the Global Netting.

Please find below the key contact details for TBOX GLOBAL CYPRUS:

Name	Required
Gerasimos Voutsaras - Cluster Director Cyprus	g.voutsaras@tbox-global.com
Photis Photiou - Country Manager	f.fotiou@tbox-global.com
Louisa Louizou - Import Operator	l.loizou@tbox-global.com
Rafaella Antoniou - Export Operator	r.antoniou@tbox-global.com

Our previous partners, operating as **ECU Worldwide Cyprus,** will settle netting outstandings within the network. Henceforth, they will be operating under the brand **Gantoni General Enterprises** as an independent company. We have entered into an understanding that they will continue to co-operate with the ECU Worldwide network, having the option to book directly with the network.

A non-ECU Worldwide Prism BL should be issued for the Gantoni routings, with the delivery agent for such BLs reflecting Gantoni. Invoices for the Gantoni bookings are to be addressed directly to Gantoni.

Gantoni will also be part of the Global netting.

Elroy De Menezes | elroy.demenezes@ecuworldwide.com

THE ECU WORLDWIDE WAY

This Culture Code brings our core principles to life. You may have heard these ideas from our beloved Chairman, Mr. Shashi Kiran Shetty — this is his philosophy in action. These are not abstract ideals; they are the mindsets and behavior we expect every ECU Worldwide team member to live by every single day. Let them shape how we lead, work, and grow — together, as one ECU Worldwide.

1 Do the right thing—even when it is hard.

Our company is the collective soul of its people. Its strength lies in our sincerity, values, and professionalism.

Keep your promises to customers, partners, and one another. We do not manipulate numbers. We do not cut corners. We are not here for shortcuts. We are here to build something that lasts.

Integrity includes financial discipline. Treat the company's money like it is your own. Avoid waste. Choose frugality over flamboyance. Profit and cash flow are not luxuries; they are responsibilities. Our focus is on long-term value, not quarterly optics.

Integrity also shapes how we represent our brand. Every commitment must be delivered with excellence and transparency.

2 If you truly and simply care, you will make it work.

This ethos underpins everything we do.

Care for the people around you. Act with humility, empathy, and respect, whether dealing with customers, colleagues, or vendors. Listen as much as you speak. Time is a form of respect, too. Come prepared, act with purpose, and use your colleagues' time wisely. Every meeting, call, or conversation should move us closer to our goals.

We do not tolerate gossip, leg-pulling, or disrespect in any form.

Contribute to humanity in any small way you can. A culture of care begins when we treat every interaction as an opportunity to help. We take pride in simply being helpful by nature.

Aspire and dream big while being the best version of yourself. Respect your body with healthy habits, and your soul with positive thinking. In the end, success is not just what we achieve, but how we live, give, and grow — together.

3 Our customers are the reason we exist.

Their trust and investment fuel our journey. We honor that by staying relentlessly committed to value creation.

Customer satisfaction is not just a metric; it is the foundation of sustainable growth. In a world full of choices, we must earn our customers' trust every single day. Let us be grateful for their business and obsessed with delivering consistent delight.

We draw inspiration from the Indian philosophy of *'Yogah Karmasu Kaushalam'* — excellence in action. At ECU Worldwide, we do not wait for ideal conditions; we make things happen. We act with urgency, own our outcomes, and never let problems linger. In our transactional, low-margin, commoditized industry, the customers do not wait.

Mistakes are expected. Stagnation is not. If you fall, fall forward. Learn fast. Try again. Celebrate success but never rest on it. The customer is never satisfied, and neither are we.

4

Think and act like an owner.

Trust is built through ownership. We believe in empowering strong, independent teams.

Responsibility is given early because we believe in your potential. If you are trusted with a decision or project, treat it like your own. If you are assigning ownership, give clarity, support, and space, then let people lead.

Ownership means thinking ahead. In a volatile industry, surprises are expensive. Anticipate problems. Plan alternatives. Resilience is built by those who prepare.

5

See every challenge as an opportunity.

Narrow-mindedness and complacency are fatal. Healthy debate is welcome. Once we align, we execute with both structure and agility. Process gives us consistency. Adaptability gives us an edge.

As markets, technologies, and customer expectations evolve, so must we. Innovation is not a department; it is a habit. Each of us should spend time every week, not just our tech teams, thinking about how to improve what we do.

While money can buy technology, it is our ability to use it that defines success. We win by leveraging our platforms to collaborate internally, compete externally, and create value.

We nurture innovation by empowering our younger generation. Their energy and creativity are our edge. We see their success as our own.

6

Communicate, communicate, communicate.

If a pattern is concerning, raise it. If an idea is promising, share it. If a task is unclear, ask. If a problem is hard, ask for help.

Be honest and transparent, especially when things go wrong. Face facts. Take accountability. Ask for help when needed. Do not hide behind hierarchy or bureaucracy.

Strive for simplicity in communication and in action. The wheels will always be turning at ECU Worldwide, but creating wheels within wheels only slows us down.

7

In a global network business, collaboration is not optional— it is essential.

We are proud to be a globally led organization with 180 countries worldwide. Cross-cultural collaboration is our daily reality and our greatest strength.

No single team, country, or department wins alone. We succeed through alignment, respect, and shared goals. We lead with global professionalism and local intuition.

We build network effects by breaking silos. Collaboration means being accessible, dependable, and focused on the greater good. It is not about credit. It is about collective progress.

Diversity is our advantage. We draw strength from our differences in culture, style, experience, and perspective. Working across languages and locations, we build inclusive habits and celebrate plural thinking. At ECU Worldwide, collaboration means making space, not just making plans.

Collaboration is our operating system. It is how we scale, how we innovate, and how we serve.

This is the ECU Worldwide Way.

Rooted in the entrepreneurial spirit of our beloved Chairman.
Carried forward by every team member.
Lived every day.
Led by example.

Let us build the future of logistics – together.
